Call flows

Four flows you should be able to draw without opening a tenant.

Item	What to remember	Source
On-net app to app	Register to Calling. If ICE succeeds, media can go direct.	b2exve
Outbound PSTN	Location routing choice, then Cisco Calling Plan, CCP, or the Local Gateway.	t9xctu
Contact center	Entry point, flow, queue, agent. Not a CUCM route pattern.	utqcm7
Emergency	Phone or app to RedSky on 443, then the emergency network. Test with 933.	av6oo3
